REJECTION OF CLAIMS ON FORMAL MATTERS

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2 and 3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. With reference to claim 2, the phrase “said head and said body have respective thicknesses equal to or smaller than the thickness of said head” is unclear. In this regard, it is unclear if the equal thickness refers to the head and the smaller thickness is referring to the body or the equal thickness and smaller thickness refer to both the body and the head. Further, the limitation that the head have a thickness less than the head is confusing. As to claim 3, failure to specify which “pressing load” is referred to as it applies to either the pad or the forming punch renders the subject matter unclear. Note that claim 2 specifies that the forming punch applies a pressing load and claim 3 indicates that the pad applies a pressing load. The pressing load referenced in claim 3 at line 3 is unclear as to which pressing punch or pad is being directed to.

INDICATION OF ALLOWABLE SUBJECT MATTER

Claims 2 and 3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
